

Order code:

4501 = Display / programming front

PR 4501 Display / programming front**Application:**

- Communications interface for modification of operational parameters in system 4000 and 9000 modules.
- Can be moved from one module to another of the same type and download the configuration of the first modules to subsequent modules.
- Fixed display for visualisation of process data and status.

Technical characteristics:

- LCD display with 4 lines featuring scrolling help text in 7 languages which guides the user effortlessly through all the configuration steps.
- Programming access can be blocked by assigning a password. The password is saved in the module in order to ensure a high degree of protection against unauthorised modifications to the configuration.

Mounting / installation:

- Click 4501 onto the front of the module.
